MICROLITE® CONTAINERS

THE CLEAR CHOICE IN REUSABLE MICROWAVABLE PACKAGING

VARIETY OF SIZES – ONE LID FITS ALL

Containers in 8, 12, 16, 24, and 32 oz. sizes share a common top diameter for one lid to fit every polypropylene (PP) deli tub. Two different lid styles available; thermoformed PP inside fit for portion control and injection molded PP over-cap lid design to fill food to the rim to maximize sales by the pound.

A CLEAR ADVANTAGE

Show off the freshness and high quality of fine food with the clear, smooth side design. Perfect for hot or cold foods, food visibility assures no order errors. Behind the counter or on display for grab 'n go, the package clarity lets the food do the selling.

Reuse and Recycle - Strong and durable polypropylene containers and lids are consumer reusable, dishwasher safe, and eligible for recycling after multiple uses. For more information about custom printing or premium rectangular deli containers with custom color lids, check the WHERE TO BUY tab on our website for a representative near you.

STRONG & LEAK RESISTANT

Tough and durable polypropylene deli containers and lids are resistant to fats and oils. The leak-resistant closure keeps juice and liquid inside with no messy spills and the sturdy construction prevents cracking during handling.

VERSATILE & MICROWAVABLE

From refrigerator to microwave to table and left-over storage, resilient package design works well for a wide assortment of food applications. Custom printing on containers and lids is available for brand awareness to encourage repeat business. Premium rectangular deli tubs with custom color lids are also available.
